Summary

Aspiring Data/ML Engineer seeking an internship position to utilize my skills in python, data analysis, and machine learning. I am eager to contribute to impactful projects while expanding my skills in building predictive models, data pipelines, and performing statistical analysis.

Education

University of Ilorin

Bachelor of Computer Science
Nov, 2016 - Oct, 2021

Technical Skills

MySQL, Python (Pandas, Matplotlib, Seaborn, Sklearn), Tableau, Report Builder (SSRS), AL Programming, Excel (VLookup, Conditional Formatting, Pivot Tables), Microsoft Power BI, Power Apps, Power Automate

Soft Skills

Collaboration, Problem-solving, Communication, Time management, Result-oriented

Additional Skills

Writing, Research

Certifications

- Excelerate Data Visualization Internship
- Microsoft Security, Compliance, and Identity Fundamentals
- Microsoft Certified: Dynamics 365 Fundamentals (CRM)
- AWS Certified Cloud Practitioner

Work Experience

Zetamind Consulting Limited

Jan, 2023 - Jun, 2023

Business Central Developer

- Integrated **Shopify** with **Microsoft Business Central**, automating sync for items, inventory, sales orders, and invoices to ensure real-time inventory updates and accuracy.
- Provided ongoing technical support for Business Central end-users, addressing system issues and implementing solutions to improve operational efficiency.
- Promoted to lead the design of custom **AL reports** using Report Builder, Microsoft Word, and Excel, successfully meeting client requirements and receiving high praise during follow-up inspections.
- Collaborated with cross-functional teams on the development of Payroll and Expense Management modules, improving system functionality.
- Leveraged **Power Apps**, and **Power Automate** to extend Business Central capabilities, delivering comprehensive solutions to enhance client operations.

Zetamind Consulting Limited

Feb, 2023 - Mar, 2023

Software Developer Intern

- Enhanced **Microsoft Dynamics Sales** based on user feedback, providing training to the Sales team on using Dynamics Sales for streamlined operations.
- Provided technical support to staff, troubleshooting system issues, and optimizing processes to improve productivity.
- Developed a **Power Automate Flow** that batch-sends emails, automating the Sales Team's communication process and saving manual effort.
- Customized client-specific **RDLC Layouts** and Word Layouts, ensuring seamless reporting and data presentation.

Yanot Consulting Limited

Feb, 2023 - Mar, 2023

IT Intern

- Trained clients on the **ICG FrontRest system**, ensuring smooth onboarding and data integration.
- Provided technical assistance on hardware and software issues, resolving client problems promptly.
- Installed operating systems and software applications on new computers, enhancing system performance and user efficiency.

Projects

Spotify Listen Analysis

Aug, 2024 - Aug, 2024

https://github.com/Muqeetat/Spotify_EDA

- Developed a data analytics project using **Python** and the Spotify API to analyze personal music listening habits, extracting and processing over 2,000 records.

- Applied **Pandas** for data cleaning and transformation, and used Matplotlib and Seaborn to visualize top songs, favorite artists, and genre trends.
- Cleaned and processed data, grouped and aggregated listening times, and calculated the diversity of music genres by analyzing the keywords in genre strings.
- Documented the entire analysis process in **Jupyter Notebooks**, and hosted the project on **GitHub** for version control and sharing.
